

Participants

①  
Craft by  
using D3

②  
Replicate  
by Gemini

Top 3 Gemini Recons.

Fig. Demonstration of the evaluation study procedure. We gave each participant the D3 code for the start and end visualizations and asked them to design and implement 1+ animation of the given transitions in D3. After collecting the participants' animations, we replicated them by editing the top 3 Gemini recommendations of the given transitions
